West Butterwick CE Primary Academy - Remote Learning Provision

At West Butterwick CE Primary Academy, we are committed to ensuring that all our pupils receive a high-quality education, even when they are unable to attend school in person. While we prioritise in-school learning, remote education will be provided as a last resort in situations where attendance is not possible but children are still able to learn.

When Remote Learning Will Be Provided

Remote learning will be considered in the following circumstances:

- **School Closures or Restrictions on Attendance:** If government or local authority guidance necessitates the partial or full closure of the school, remote learning will be implemented to minimise disruption to pupils' education.
- **Individual Pupil Absences:** In cases where a pupil is absent for a short-term period due to medical recovery, injury, or exceptional circumstances but is well enough to learn, remote education may be provided.
- **Pupils with Additional Needs:** For pupils with special educational needs or mental health challenges affecting attendance, remote learning may be considered as part of a planned reintegration back into school.

Our Remote Learning Approach

We aim to provide high-quality, meaningful, and accessible remote education that enables pupils to stay on track with their learning and remain connected with their teachers and peers.

Learning Materials

- Pupils will have access to structured learning through the school website and/or Microsoft Teams, which may include recorded and/or live lessons, tasks, and reading materials.
- High-quality external resources, such as Oak National Academy lessons, may be used to supplement learning.
- Printed resources will be made available where required to support those with limited access to technology.

Expected Engagement

- Pupils are expected to engage with remote learning activities in line with their usual school timetable, as much as possible.
- Teachers will provide regular feedback and opportunities for interaction to support learning.
- Parents and carers are encouraged to facilitate a structured learning routine at home.

Support for Pupils and Families

- We will work with families to address any barriers to accessing remote education, including providing school-owned devices, where available.
- Special consideration will be given to pupils with SEND to ensure they receive appropriate support tailored to their needs.
- Our safeguarding measures will remain in place, with regular well-being checks and guidance on safe online learning practices.

Attendance and Reintegration

- Pupils receiving remote education will still be recorded as absent in the school register in line with attendance regulations.
- Remote education will be reviewed regularly and will not replace the importance of in-person attendance. A clear plan for reintegration will be established for each pupil to return to school as soon as possible.

Communication and Support

- Parents and carers will be informed of any remote learning arrangements via our school website and/or direct communication channels.
- Families eligible for free school meals may receive appropriate support, such as meal parcels or vouchers, during any period of remote education, as determined by local or national government.

If you have any questions regarding our remote learning provision, please contact the school office. We appreciate the support of our pupils, parents, and staff in ensuring that learning continues effectively during periods of remote education.
